For our customer, one of Austria's most successful technology corporation, we are looking for a responsible and enthusiastic personality to enhance the high-qualified IT-Team in ***Klagenfurt (fulltime) henceforth.***

Full Stack Developer / DevOps Engineer (f/m)

Your Responsibilities:

- Software development for ITS and ETC services for cloud-ready applications
- Analysis, design and implementation of near-real-time applications dealing with large volumes of data
- Work closely with developers to produce top quality work and ensure continuous integration and delivery

Your Profile:

- Degree in Information Technology or equivalent years of work experience
- Hands-on experience with Java, JS, NodeJS, Spring/Spring Boot, ORM, Maven/Gradle
- Test-Driven-Development (Unit, Integration)
- Working knowledge of messaging systems, RDBMS and new databases
- Good skills of managing Linux/Bash, Ansible, Docker and CI/CD
- Analytical and solution driven personality; familiar with Scrum and agile methodologies
- Passion to drive collaboration and deliver high-quality across an international team
- Excellent oral and written English, German is of advantage

The Offer:

- An interesting full-time position within a global family owned company
- Exciting challenges with room for new and innovative ideas within a highly qualified team
- Social benefits of a modern company, e.g. bridge days regulation and flexible working hours etc.
- A minimum gross salary of € 40.000 p.a. - according to your qualifications and your job experience we are willing to overpay
- Start date: as soon as possible

We are looking forward to receiving your application: jobs@cl-fusion.eu with reference ID-1623.
